SUMMARY

Software Engineering Intern with experience building scalable backend systems, REST APIs, and full-stack web applications using Java, Python, TypeScript, React, Next.js, Node.js, PostgreSQL, and AWS. Improved production query performance by 2x and reduced report latency by 50% through database optimization and monitoring. Oracle Certified Java Developer and top-500 finalist in the Myntra ScriptedByHer (36,000+) and Goldman Sachs (40,000+) national hackathons.

EDUCATION

Vellore Institute of Technology University

Sehore, Madhya Pradesh

B.Tech in Computer Science and Engineering

Aug 2023 – May 2027

- Relevant Coursework: Applied Mathematics, Database Systems, Data Structures & Algorithms, Machine Learning, Cloud Computing, Software Engineering

PROFESSIONAL EXPERIENCE

Software Engineering Intern

Mar 2025 – May 2025

Mahamai Hydro Power Pvt. Ltd.

Gurugram, Haryana

- Architected 20+ ETL specifications across 4 services, defining data contracts and validation rules that eliminated drift between upstream and downstream systems
- Modernized production database tables and created regression-based forecasting models in Python, doubling query speed and cutting report latency by 50%
- Cut issue resolution time by 40% by deploying monitoring scripts that surfaced KPI baselines and triggered triage alerts for recurring failures
- Refactored storage-layer logic and API contracts through cross-functional collaboration, strengthening data integrity spanning 5 facilities

PROJECTS

Acadence – AI Learning SaaS | *Next.js, Supabase, Clerk* | [GitHub](#) | [Live](#)

Feb 2025 – Apr 2025

- Delivered a real-time AI tutoring SaaS on Next.js App Router with Server Actions, eliminating a separate REST API tier and reducing backend code by 30%
- Implemented the Vapi voice AI SDK for live conversational sessions, managing multi-state call logic and persisting 100% of session history to Supabase
- Designed tiered subscription billing with Clerk for plan-based access control and modeled a PostgreSQL schema for companions and users

Dressly – E-Commerce Platform | *Next.js, Node.js, Express, MongoDB* | [GitHub](#) | [Live](#)

Jan 2025 – Mar 2025

- Launched a customer-facing e-commerce platform serving 500+ products on a modular Express/MongoDB backend that separates routes and controllers
- Secured the platform with JWT authentication via Passport.js, adding protected-route middleware and role-based authorization for 10+ API endpoints
- Streamlined checkout with Stripe and PayPal SDKs, and shipped cart, wishlist, and order-tracking features via a dedicated service module using Axios and SWR

Brain Tumor Detection | *Lead Researcher* | *Python, scikit-learn, NumPy* | [GitHub](#)

Oct 2024 – Dec 2024

- Led a 2-person research team through a full machine learning workflow on 3,000+ medical records, from ingestion to final model evaluation
- Achieved 90%+ held-out classifier accuracy by applying normalization and stratified splits with rigorous quality controls

TECHNICAL SKILLS

Languages: C++, Python, Java, JavaScript, TypeScript, SQL, HTML, CSS

Frontend: React, Next.js, Tailwind CSS, Redux, SWR, Formik, Responsive Design

Backend: Node.js, Express, REST APIs, JWT, Passport.js, Server Actions, Webhooks

Databases & Cloud: MongoDB, PostgreSQL, Supabase, MySQL, AWS (EC2, IAM), Docker

Practices: Git, CI/CD, Pipeline Architecture, Statistical Modeling, EDA, Agile

ACHIEVEMENTS & CERTIFICATIONS

Myntra ScriptedByHer 2026 – Ranked 500th among 36,000+ competitors nationally

Jun 2026

Codeforces (Pupil) – Reached the top 1,500 of 30,000+ users globally in competitive programming

Feb 2026

Goldman Sachs Hackathon – Finished 448th of 40,000+ entrants nationally

Nov 2025

Oracle Certified Java Developer, Oracle

May 2025
