SUMMARY

Full-stack software engineer proficient in C++, JavaScript, and TypeScript. Experienced in building scalable web applications using React, Node.js, Express.js, and PostgreSQL, with a strong foundation in data structures, algorithms, backend architecture, and cloud computing. Certified Oracle Java Developer and awarded 500th place among 36,000+ participants in the Myntra ScriptedByHer national hackathon.

EDUCATION

Vellore Institute of Technology University

B.Tech in Computer Science and Engineering

- Coursework: Applied Mathematics, Database Systems, Data Structures & Algorithms, Machine Learning, Cloud Computing, Software Engineering

Sehore, Madhya Pradesh

August 2023 – May 2027

PROFESSIONAL EXPERIENCE

Software Engineering Intern

Mahamai Hydro Power Pvt. Ltd.

- Engineered 20+ ETL specifications spanning 4 services, defining contracts and validation rules that removed drift between upstream and downstream systems
- Scaled regression-based forecasting algorithms in Python and profiled live tables to isolate bottlenecks, then applied index-level fixes that doubled query speeds
- Accelerated issue resolution by 40% by deploying monitoring scripts to surface KPI baselines and recurring failures with automated triage alerts
- Championed cross-functional integration to translate business logic into storage-layer changes and API consumers, strengthening integrity at 5 facilities

March 2025 – May 2025

Gurugram, Haryana

PROJECTS

Acadence – AI Learning SaaS | *Next.js, Supabase, Clerk* | [GitHub](#) | [Live](#)

February 2025 – April 2025

- Spearheaded a real-time AI tutoring SaaS on Next.js App Router with Server Actions, eliminating the need for a separate REST API tier for core database operations
- Configured Vapi's voice AI SDK for live conversational interactions, managing multi-state call logic and persisting session history to Supabase
- Established tiered subscription billing with Clerk, enabling plan-based access controls, and designed a PostgreSQL schema for companions and users

Dressly – E-Commerce Platform | *Next.js, Node.js, Express, MongoDB* | [GitHub](#) | [Live](#)

January 2025 – March 2025

- Shipped a customer-facing e-commerce application serving 500+ products using a modular Express/MongoDB backend separating routes and controllers
- Integrated JWT-based sign-in with Passport.js, building protected-route middleware and role-based authorization for buyer and admin access across 10+ endpoints
- Connected Stripe and PayPal SDKs for checkout, then delivered cart, wishlist, and order-tracking functionalities via a dedicated service module with Axios and SWR

Brain Tumor Detection | *Lead Researcher* | *Python, scikit-learn, NumPy* | [GitHub](#)

October 2024 – December 2024

- Directed a 2-person research squad through a full analytical workflow on 3,000+ medical records, from ingestion to final evaluation
- Applied normalization and stratified splits with rigorous quality controls, achieving 90%+ held-out classifier accuracy

TECHNICAL SKILLS

Languages: C++, Python, Java, JavaScript, TypeScript, SQL, HTML/CSS

Frontend: React, Next.js, Tailwind CSS, Redux, SWR, Formik, Responsive Design

Backend: Node.js, Express, REST APIs, JWT, Passport.js, Server Actions, Webhooks

Databases & Cloud: MongoDB, PostgreSQL (Supabase), MySQL, AWS (EC2, IAM), Docker

Practices: Git, CI/CD, Pipeline Architecture, Statistical Modeling, EDA, Agile

ACHIEVEMENTS & CERTIFICATIONS

Myntra ScriptedBy Her 2026: Awarded 500th place among 36,000+ competitors in India

June 2026

Pupil, Codeforces: Reached the upper 1,500 of 30,000+ users globally in competitive programming

February 2026

Goldman Sachs Hackathon: Finished 448th out of 40,000+ entrants nationally

November 2025

Oracle Certified Java Developer, Oracle

May 2025
